## ONE CENT SALE 1c

Thursday, Friday and Saturday  
October 24, 25 and 26

### What is a One Cent Sale?

It is a sale where you buy an item at the regular price, then another item of the same kind for one cent. As an illustration: The standard price of Kleenex Dental Creme is 50c, you buy one tube at this price and by paying 1 Cent more, or 51 cents, you get two tubes, and save 49c. Every article in this sale is a high quality guaranteed product, just the same as is sold every day at the regular price. No limit—buy all you want, but on Thursday, Friday and Saturday only!

Don't forget the Golf Club Dance in the Assembly Hall of Lacombe School on Wednesday, October 30th.

Community singing and guessing contests formed some of the more interesting features of a delightful at home, given by the Ladies of St. Andrew's United Church on Tuesday evening. A small piece of paper bearing the name of a famous personage was attached to the back of each guest when entering the hall. When by advice questioning the wearer was enabled to guess whom he represented, the paper might be removed. Partners were secured for an auto guessing contest which was won by Catherine Newell, the prize being a small Ford car. Solos by R. Ritchie, Miss B. Buckley, Miss P. Sims and Mrs. J. MacDonald were much appreciated as were some old folk songs by T. Wilkes and Hugh Reed. A delicious lunch closed a most enjoyable evening.

## MEADOWBROOK NEWS

Mr. Will Riley spent last week visiting friends in Lacombe.

The chicken dinner that the Ladies Aid served in Lacombe last Wednesday was a great success and was well patronized. The proceeds were over \$100.00. The ladies especially wish to thank the Misses Frizell for their assistance.

Many of the farmers of this district have started fall plowing, owing to such beautiful weather. Much care is being taken in setting fires, as the ground is so dry.

Misses Beatrice and Elaine Miller were week-end visitors of Mrs. Clifton Long.

Mr. and Mrs. McGee's oldest son, John, was united in marriage to Miss Isabel Porteus by the Rev. R. B. Layton last Saturday evening. The young people gave them a chivalric which was well attended. The community wishes them much joy and success in their future life.

Ray Long delivered a 420 lb. load of plaster board for John Spink last Wednesday afternoon.

Wednesday DeCoursey of Rimby was visiting in our district last week. Clara Hasey is helping Mrs. Alex Wilson, who is quite ill, but we hope she will soon recover.

## CLIVE NEWS

We are glad to hear at time of going to press that Laura Harris, who has been suffering from infantile paralysis is reported as progressing.

The District Lodge of the Loyal Orange Association was held here on Monday evening with Ponoka and Lacombe Lodges well represented.

The United Church Anniversary services will be held here on Sunday, Nov. 17th. Rev. Wm. Hollingsworth, of Edmonton will preach.

The Religious Education Institute will be held in Wainakivin this Friday. All B.S. workers are expected to be present.

## O PROFIT-SHARING METHOD OF ADVERTISING

This sale has been developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full size packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice is profit is justified by, because we know the goods will please.

you. This sale is being conducted by

## The Sheep Sale

That a much greater interest is being taken in Lacombe's Annual Sheep Show and Sale is demonstrated by the increased attendance each year, there being a crowd of over 500 people on the grounds this year.

The judging was carried on during the forenoon by S. G. Freeborn of the livestock branch, Ottawa, and H. E. Wilson, Assistant Superintendent of the Experimental Station, Lacombe, who gave complete satisfaction, also demonstrating to the crowd on what points the awards were made.

Prizes were awarded as follows:—  
Shropshire Rams: 1st, Ribben and Champion, O. P. Quince, Traskley; 2nd, C. Morhouse; 3rd, A. W. Sharps, Lacombe.  
Suffolk Rams: 1st, 2nd and 3rd and Champion, J. C. Buckley.  
Oxford Rams: 1st, and Champion, I. Hyvonen, Donahoe; 2nd, G. A. Dugroff, Bentley; 3rd, Kline and Son and Manolson, Innisfail.  
Oxford Ram Lamb: E. B. Williamson, Strathcona, took 1st, 2nd, and 3rd ribbons.  
Hampshire Rams: 1st and 2nd, P. H. Ashby, Strathcona; 3rd, G. Allan, Olive.

Hampshire Ram Lamb: In a class of 13 entries which was very keen and caused the judges some trouble in placing. Champion, P. Jamieson; 1st, P. Jamieson; 2nd, P. H. Ashby; 3rd, P. Jamieson.  
The sale conducted by C. F. Damron, auctioneer, and Jesse Fraser, Clerk, began at 1:00 o'clock and carried on without a hitch until 5:00. Although in comparison with last year the proceeds were not quite so large, yet considering the feed shortage and other adverse conditions, the following results were very satisfactory. Last year 1185 head brought \$14,295.75; this year 1282 head brought \$13,180.50.

106 head of rams sold for \$731.00, an average of \$6.90 each, Hampshires being the favorites and bring the top prices. In the purchases, 4 head of Shropshire ewes sold at \$16.00 each, 7 Hampshire ewes sold at \$15.50 each, and 3 Oxford ewes at \$22.00 each.

### GIRL STUDENTS CARRY OFF HONORS

Of the thirty-one pupils in Alberta who have been awarded the Governor-General's medals for the highest standing in the High School Entrance Examination, twenty-seven are girls. The remarkable disparity between the scholarship display of boys and girls should call for the attention of the education authorities. In past years girl medal winners have been in the majority, but not in such a marked degree.

It is self-evident that girl pupils in practically every inspectorate of the province have shown more diligence in study than the boys. Just why this should be the case in such a marked degree might be worth an investigation.  
Some educational authorities, both in Alberta and elsewhere, are inclined to the opinion that this general manifestation of mental superiority by girls around the entrance age of fourteen is due as much to greater mental development at that stage of life as to more studious propensities. It is asserted that the male student catches up later in the higher grades when he has learned to apply himself to his educational tasks. Statistics are not available to back up this claim.

The two Calgary medal winners were prepared for examination by a male teacher. This fact may lead some observers to a false conclusion as to the relative merits of men and women teachers. It is offset, for instance, by the fact that the two Ed-

monton winners were taught by women.

## short cuts for SAVINGS

YOUNG MAN! Your life assurance premium includes a certain amount invested under the most advantageous conditions.

\$100 deposited in a Savings Account is at the end of One Year worth—\$103.  
\$100 deposited on account of life assurance creates an estate in One Day of \$5,000.

A young man can, for an expenditure of approximately \$200 yearly, buy life assurance of \$10,000.

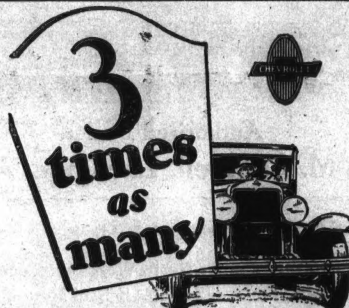

To accumulate the same money by ordinary savings methods, he would have to deposit \$200 each year for 32 years, (3% compound interest.)

During that period 20 out of every 100 men of his age have died; failures and reverses have ruined many more.

The current Sun Life dividend scale produces remarkable results, and will give you greater returns than you anticipate. See the local Sun Life representative.

NO other six-cylinder car has ever earned, in any year, one-third the public acceptance. . . one-third the volume of sales . . . which have been bestowed upon Chevrolet Six during the nine months since its introduction.

This tremendous public acceptance is due to three outstanding facts. To the fact that Chevrolet offered, for the first time in history, a six at the price of a four . . . To the superb standard of quality in Chevrolet's design, material and workmanship. . . And to the new, greater performance abilities that Chevrolet Six provided.

Chevrolet Six was four years old in experiment, in research, in testing, in proving . . . before the first Chevrolet Six was placed in the hands of its owner. And that owner . . . like the million and a quarter owners who followed his example . . . SOLD HIMSELF on the Chevrolet he bought . . . on the road, behind the wheel. Why not let us place a Chevrolet Six at your disposal . . . and form your own opinion of its value. Ask about the GMAC Deferred Payment Plan C-12-10-29C. PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

#### LIFEBOAT-WOMEN NOW!

WOMEN may soon "man" the lifeboats now, if this young lady's example is followed. Miss Lily Allison, stewardess on the Cunard liner "Albatross", is the first woman in the 90 years of Cunard history to pass the British Board of Trade examination and receive a certificate as a "lifeboatman". She is here seen receiving instructions from Third Officer MacKellar on the ship.

Thursday, prayer meeting at 8 p.m.

#### LOCKHART NEWS

The Girl's Club met at the home of Miss Louise Haddon last Saturday. Only seven members were able to attend. Jessie Malcolm handed in her resignation as secretary and Louise Haddon was appointed to take her place until the end of the year. Mrs. Reid, Mrs. Kesteven, Louise Haddon and Mrs. Calkins will meet at Mrs. Jim Jaffray's on Tuesday to finish the Girl's Club Quilt. Miss Jessie Malcolm and Miss Lily Gyorfi are attending high school at Bentley. Mr. Tom Ruckie, Geo. Parkes and Miss Helen Nellies, of Lacombe spent Sunday at the L. Haddon home. Miss Cook went to Calgary to visit her aunt who is a guest of her mother. Mr. Lavern Haddon, who has been working for G. A. Robson the past season returned to his home in B.C. on Tuesday. Mr. Ted George, Ford Dealer of

Rimby has sold several new cars in the valley the past week. The W.I. held their regular meeting at the home of Mrs. L. Haddon on Thursday, Oct. 10. After the routine business, Mrs. Layton turned the meeting over to Mrs. Jewett, W.C.T.U. Speaker of Calgary. Mrs. Jewett gave a very interesting talk on the work of her organization. She also outlined the plan of the W.C.T.U. in the Dominion-wide campaign for prohibition. Mrs. Layton was appointed canvasser for this district. Mrs. H. Haddon, Mrs. Miles and Mrs. Miller of Bentley were present at the meeting.

The W.I. plan to hold a chicken supper on Nov. 8th. The Woody Ring orchestra has been engaged for the occasion. The next meeting will be at the home of Mrs. Kesteven, the second Wednesday in Nov.

#### AT THE REX THEATRE

Thursday, Friday, Saturday  
The big newspaper mystery picture, "Big News". Its the thrill picture of the year. He was a star reporter—discharged from his paper for drunkenness. And after the argument with his editor, the old man was found murdered! Was "Steve" Banks guilty? Who cut the pipe of the portable gas-coke in the room? Where did Reno, the smooth bootlegger, come in? And did Mrs. Banks, beautiful reporter on a rival paper, mean to stick by her word to get a divorce from her husband. There are a few of the questions, the answers to which furnish more thrills in pictures than you've seen in any five pictures this season! It's all-talking, all thrill, all entertainment, with Robert Armstrong and Carol Lombard leading a superb cast to the swift climax!  
Also all-dance comedy "Here comes the Plumber." Matinee, Saturday at 2:30.

### HERE'S THE TORLADOR PYJAMA

Here's a costume pyjama with a Spanish swag. It's the tuckin type with wide flared legs. It has an incontinent air. Perhaps it's the languid application of the torlador smoking perhaps it's because it is also loungeable.

We are showing this fascinating model, and many of the Woods new Brevities in our Underwear Department. Won't you come and see them?

\*Of course, unlike Woods Brevities you could wear the new Torlador Pyjama long, sure still, full fashioned jeans.

### News From the Wheat Pool

The Wheat situation in Western Canada is being followed with great interest and with varied emotions by people all over the world. Wheat is the basic food of many millions of people and the chief source of income of millions more. The consumers are interested particularly in cheap bread and the producers in getting a fair return for their labor.

What arouses interest in Canada is the fact that our wheat prices have been above the world's parity and refuse to come down. This situation persists in the face of the fact that Canada is the leading wheat exporting country in the world and even although the western crop is about this year, the Dominion will still have to export possibly two hundred million bushels of wheat.

The present wheat crop in Western Canada has been estimated at from 250,000,000 bushels to 375,000,000 bushels, about half the crop threshed in the Prairie Provinces last year. In the face of this comparatively light crop terminal storage is being over-extended while the surplus wheat is backing up into the country. Railway companies are rationing cars for wheat and lake grain carriers are taking on winter storage.

This situation has been laid at the door of the Canadian Wheat Pool and the Wheat Pool has accepted the responsibility.

In a statement recently published, E. B. Ramsay, late general manager of the Wheat Pool's central selling agency, points out that "at present price levels, having due regard to the grade of the crop, this only promises a gross farm income of \$298,000,000 or an approximate reduction in the buying power of the West of \$170,000,000." "The value of last year's crop," Mr. Ramsay calculates, "of which 400,000,000 bushels were inspected, was very close to \$470,000,000." Present price fluctuations showed cash wheat at Winnipeg on October 1 selling for \$1.46 1-2, consequently, if Canada's crop this year, on account of the quality and scarcity, is to bring the financial return any where near the \$470,000,000 of last year, the prices now prevailing will have to go considerably higher. Every further drop involves a further reduction of the purchasing power of the West.

If the price of Canadian wheat was reduced there would be no difficulty in making sales and the blockade would be at an end, but are Canadian growers prepared to place their high quality wheat on the bargain counter? The Wheat Pool believes it poor business to do so.

The European buyers of wheat are showing concern over the Canadian situation but have been steadfastly refusing to come into the market at prevailing levels. News stories are being cabled from Britain telling of huge supplies of grain on hand, of abnormally large crops in France, and of low prices being paid British farmers for their wheat, all circulated to have a bearish effect on the Canadian market. It is significant to note, however, that Hon. J. H. Thomas estimates the wheat supply in Britain only sufficient to cover requirements for six weeks' time.

There has been criticism of Canadian Wheat Pool's stand by various interested overseas and also in Canada. Steamship companies have been laying up some of their Great Lakes carriers in winter quarters and some have expressed bitterness over the fact that our grain is not being exported. Railways have been hindered in their operations and possibly have not been pleased over the situation. But in spite of criticism the Wheat Pool is maintaining its position that Canadian farmers cannot take lower prices for their wheat.

There are some who point to Western Canadian wheat growers as a gang of profiteers, eager to raise the price of bread to the poor workmen in Europe. Others point to the Pool as being instrumental in dis-organizing the shipping and transportation interests and in having workmen put on the unemployed list. These accusations are unfair. Farmers in Western Canada badly need a fair price for their wheat this fall or otherwise there will be hard times. In Western Canada in most districts the crop has been extraordinarily light and even at present prices, there is little profit in wheat raising. In many sections, of Western Canada there is dire want in farm homes because of frosted grain last year and drought this year. No one can find fault with these people for desiring to obtain a price for their grain which is not at all exorbitant. Furthermore it should be remembered that the same buyers in Europe who are so eager to obtain cheap wheat now, steadfastly refused to buy last spring when good Canadian wheat could have been purchased at a price not much above \$1.00 a bushel.

Western Canadian farmers raise wheat under great difficulties. The ravages of the climate, frost, hail and drought, take a tremendous toll of his labor annually. He is the only farmer in the world who grows wheat such a long distance from tide water and places his dependence on such an extent on the export trade. He has to buy everything he requires in a protected market and sell in the world market. He enters into competition with grain grown under peonage system and on low-priced land. He is not

a heartless profiteer; he seeks a fair reward for his labor. He works hard, uses his capital to produce a greater volume per acre and uses his experience and intelligence with which to create a great marketing agency—the Canadian Wheat Pool. He is deserving of credit rather than blame. The world wheat situation has been made fairly plain. The forecast made by the United States department of agriculture indicates a serious depreciation in the amount of wheat produced in the world this year as compared to last year. Exclusive of Russia and China, the estimated world production is 3,400,000,000 bushels for the present season, or half a billion bushels below the record production in 1928. Part of this reduction is made up by an increase in the world's carryover of 60,000,000 to 70,000,000 bushels annually so that there is a decrease of about 400,000,000 bushels in supply in relation to demand in the last crop year. Then it should not be overlooked that Western Canada is going into the winter after one of the driest autumns on record. This means that the seed bed next spring will lack very necessary moisture and that unusually heavy and frequent rains will be required during the growing season to produce a normal crop. The United States' winter wheat crop has been above the average the past three years and the law of average would indicate that this might not occur this coming year. Taking everything into consideration it is manifest that there will be a shortage of wheat and that there is no reason for Canadian wheat to decline to the levels fixed by the unbusinesslike marketing systems of other exporting countries. Since July enormous quantities of low-priced wheat have been exported to Europe by the Argentine. Liverpool buyers have not found it necessary to buy Canadian wheat at around \$1.50 when they could buy Argentine wheat at \$1.12.

One of the arguments put up against the Wheat Pool since its organization was that supply and demand governs prices. The Pool has admitted statement to be true in a broad sense, but there are governing features of vital importance. If the Canadian wheat market had been left to the mercy of the law of supply and demand this fall most of our wheat would be sold before the end of the year at greatly reduced prices and most of the producers would wake up to the fact that their wheat was worth no more than it was at the time of their hands.

The Wheat Pool action is receiving the disapprobation of most of the people of Canada. The Winnipeg Free Press which has always maintained a position of strict neutrality as regards the Wheat Pool and the Grain Trade, came out last Friday and openly commended the Wheat Pool's determined

stand in a two-column editorial. In a special article in The Vancouver Province it is stated that the Grain Trade of Canada has gone through a revolution in its marketing methods. In the old days traders bought and sold each day as rumors developed. The reported near-collapse of limitations which the railways put on the grain movement on Tuesday, October 1, had it developed seven years ago would have driven the prices down ten per cent. below the world levels and every market in the world would have felt a similar reaction, while foreign buyers would have made hay while the sun of confusion shone.

But what actually did happen? The market opened 1-2 cent above the previous close and reached a high of 1-1-2 cents above, touched 1-2 1-2, a low of one cent below the previous close and closed 1-4 cent up. It was a fine showing in the face of the biggest bear news of the day. Winnipeg was never less than 1-2 cent above Liverpool that day, notwithstanding persistent railing of the market by "bears" intent on buying on breaks which they could not force on the market.

Not a bad showing for the exporters of orderly marketing. It was a situation fraught with danger to the producer, more particularly so since an air of suspicion had almost unconsciously developed. Elsewhere were reaching a capacity load, farmers' deliveries were falling off, steamship lines were idle with their crews off the payroll, powerful business interests were uneasy, the railways saw their receipts dropping to an alarming extent. It was an ideal situation for a great "bear" market which would see Canadian wheat on the block to ease the screaming wheels of Canada's economic life. Yet nothing happened.

The Canadian Bank of Commerce publicly expressed the opinion that the Wheat Pool is taking a sound stand in its present policy. In its monthly commercial letter the Bank says it is as much the privilege of the farmers and their marketing organizations to refuse to sell on a declining market as it is of the other business interests who bargain for the best possible returns. The bank's statement is in accord with the Wheat Pool in predicting much reduced world supplies and states that only a remarkable recovery can provide normal supplies from the southern Hemisphere.

No one should delude himself that Western Canadian farmers are rolling in wealth. Figures recently compiled show that in a survey conducted on 12,000 representative United States farms the average profit was \$1,334 in the 12 months of 1928. The average investment in land was \$15,416. Deducting six per cent interest

on the investment shows the farmer a net profit of \$484 for a year of labor. I do not know if a similar survey has ever been made for Canada, but it is safe to predict that the returns would not average much higher. The wheat producer of the Canadian prairies is not a "profiteer", and in fact ranks among the lowest paid of all workers.
